

Techno Network Solutions

Techno Network Solutions

ABOUT US

We are proud to introduce ourselves as the team with over 12 years of successful track record in implementing various Structured Cabling Projects, we offer complete installation Package including Consultancy, Installation and Support.

With a vision to become the world class information and communication technology solutions provider for our clients, we started **Techno Network Solutions** with a team of 6 people & now we have grown our strength to more than 40+ people in our firm **Techno Network Solutions** started its operation in 2010 as a System Integrator to provide solutions for fast growing IT infrastructure projects to Multi-National Companies. With our total commitment, dedication and specialization in Information Technology field, we have successfully implemented many IT infrastructure projects. As part of company strategy, **Techno Network Solutions** has expanded its expertise in total IT Infrastructure

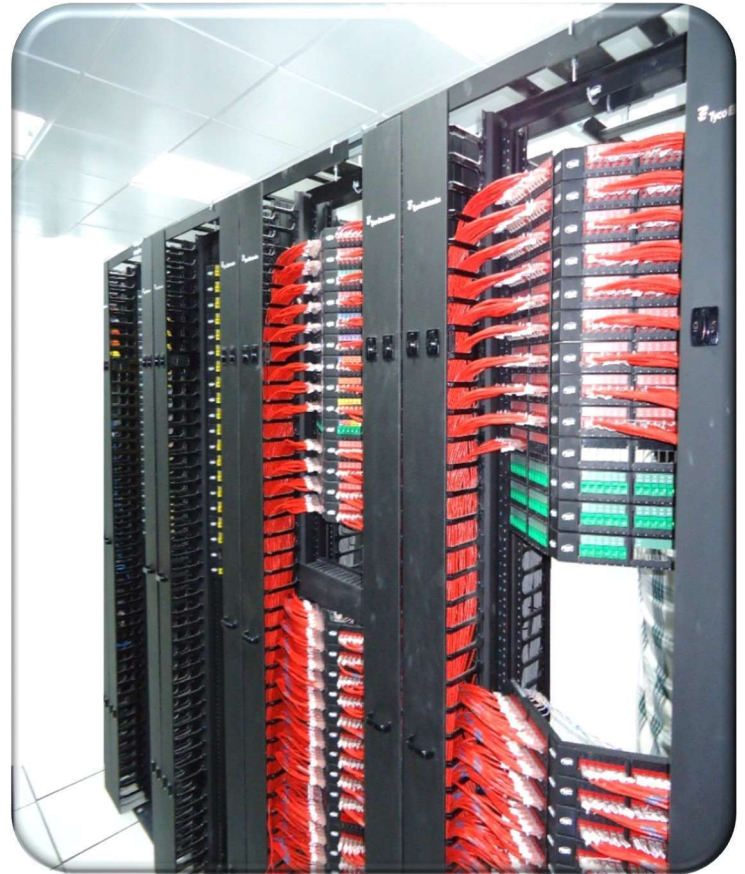

solutions by Design, Execution, Controlling and Closeout with a professional Project Management aiming to streamline Project approach to ensure projects are being carried out within allocated cost, time, budget, and NO compromise on Quality. **Techno Network Solutions** is committed to provide world-class service to all customers on structured cabling and network integration. Our Direct Clients include some of the reputed Indian & Multi-national corporations. We have our corporate office at K R Puram, Bangalore with total team of professionals with specific experience to align with client's requirements

CORPORATE PROFILE

Techno Network Solutions was established in the year 2010, With over 6 years of experience, our total commitment, dedication and specialization in IT field, has created great success stories with integration of Design, Management, Installation and Maintenance skills.

40 + Professionals & certified service executives to meet the project schedule requirements. Highly experienced Logistic & store management team to ensure the materials inventory. Customized program for Support including Resident Engineers and is undoubtedly a leading solution provider for the Voice Conferencing, Video conferencing and Tele-presence solutions. Our unified-communication helps transform business by reducing costs, improving efficiency & productivity while lowering their carbon foot print.

We are also a leading Systems Integrator and Design Consultant for AV Industry. We provide the highest level of personalized customer service. Our technical team undergoes continuous technical training to ensure that our end users receive only the best in terms of technology

OUR MISSION STATEMENT

"We shall ensure that every system designed, installed, sold or rented will be of the highest professional standard and value for money. We shall continuously invest in the training of our people and the transfer of knowledge so that our customers receive both state of the art technology and service quality. The commitments that we make will be executed competently, diligently and within the agreed budget and timeframe."

Why Techno Network Solutions?

- **Safety first for all:**

We incorporate use of branded PPE (Safety Helmets, Jackets, Safety Belts, Goggles, Gloves, and Ladder) with an on-site safety personnel for projects.

- **Design Meetings:**

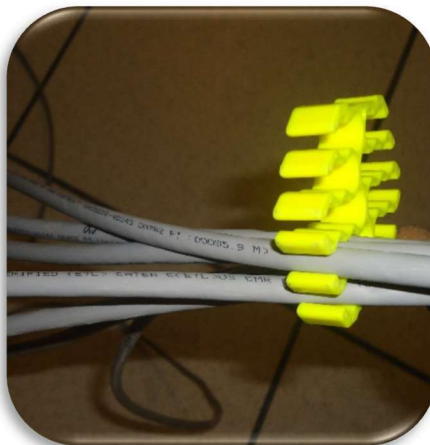

We focus on end-customer requirements and believe in verifying them with planned design before implementation at site.

- **Project Review Meets:**

Each project is handled by an experienced In-charge who focuses mainly on bringing up the progress and hurdles to the management.

- **On-site Training:**

Prior to handing over, we focus on providing a complete IT training to concerned staff about the implementation done.

- **Site Documentation:**

While handover to client, we focus on providing a complete set of documents having all the designs connectivity details.

- **Daily Activity Report:**

By EOD a daily activity report is mailed to management for their review and expert comments.

- **Defect Liability Period:**

A DLP period of 1 year is provided to each client irrespective of the project budget as we believe in serving the Customer with all our efforts not for money but for goodwill
